

Online Safety

Social media and communication

As a class, how many different social media/communication networks can we list?

-
-
-
-
-

What potential risks do these networks have for their users?

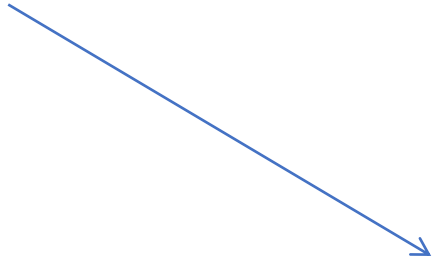

- Location services
- Revealing personal information
- Fraud
- Inappropriate material
- Cyber bullying
- Grooming
- Talking to unknown people

1) Hands up – Who has at least one form of social media/communication?

2) Think about how many ‘friends’/contacts you have on each of these networks.

3) Do you know all of your contacts personally?

If the answer to this question is ‘no’,
you are putting yourself at risk.

Social Media Quiz

(answers taken from UK study carried out in
2016)

How quickly can your picture 'spread'?

How quickly can a photo spread on the internet?

This is the question that this teacher has asked her Grade 5 students when discussing internet security. To make the lesson have more meaning to the kids, the teacher decided to be practical and less theoretical as she posted this picture on Facebook:

In the space of 9 days, how many:

- Likes do you think this photo had?
- Shares do you think this photo had?

How quickly can your picture 'spread'?

How quickly can a photo spread on the internet?

This is the question that this teacher has asked her Grade 5 students when discussing internet security. To make the lesson have more meaning to the kids, the teacher decided to be practical and less theoretical as she posted this picture on Facebook:

And that
doesn't
include the
people who
have seen it
and not
reacted!

In the space of 9 days, how many:

- Likes do you think this photo had?
231,886
- Shares do you think this photo had?
3,694

How can you keep safe?

Create a list of things you can do to keep safe on social media.

Be prepared to feedback.
