

Subject Overview Music – Year 11

Studying Music in year 11 allows students the opportunity to both consolidate and develop the knowledge and skills learned in year 10. There is a focus on demonstrating the creative skills developed in year 10 through the composition of original music and performance of pre-existing pieces. In addition, students demonstrate their appraisal skills through the study of set study pieces, whilst also applying the knowledge gained through the appraisal of pieces of unfamiliar music. Music encourages students to become confident all-round musicians whilst developing sought after skills for the future.

	Half Term 1	Half Term 2	Half Term 3	Half Term 4	Half Term 5	Half Term 6
